# Disclosures for Administration of Endowment and Other Institutional Funds

## Introduction and Purpose

Ministry Trust, LLC., (the “Ministry Trust”) is a religious, not-for-profit corporation incorporated to support evangelical ministries and churches with the objective of advancing the gospel of Jesus Christ. Ministry Trust manages endowments, charitable funds, designated accounts, and planned gifts through prudent, dependable, and competitive fiduciary services consistent with the highest ideals of Christian stewardship.

Ministry Trust is recognized as an organization exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code (the “Code”) and classified as a public charity under sections 509(a)(1) and 170(b)(1)(A)(vi) of the Code whereby only unrelated business income, as defined by Section 512(a)(1) of the Code, is subject to federal income tax.

The purpose of this disclosure statement is to provide guidance for, expectation of, and limitation on all parties bearing investment responsibilities with Ministry Trust.

## Delegation of Responsibilities

The administration of endowment and other institutional funds (“Fund”) is managed in compliance with all applicable fiduciary prudence, and due diligence requirements that experienced investment professionals would utilize and with all relevant laws, rules and regulations issued by local, state, and federal entities that apply to Ministry Trust. Ministry Trust will adhere to the requirements of the Uniform Prudent Management of Institutional Funds Act (“UPMIFA”).

## Standard of Conduct

- I. Subject to the intent of a donor expressed in a gift instrument or any express written agreement, Ministry Trust shall consider the charitable purposes of the beneficiaries and the purposes of the agreement in managing and investing the Fund.
- II. In addition to complying with the duty of loyalty, each person responsible for the management and investment of the Fund shall manage and invest such Fund in good faith and with the care an ordinarily prudent person in a like position would exercise under similar circumstances, considering the purposes, terms, distribution requirements,

and other circumstances of the Fund.

- III. In managing and investing the Fund, Ministry Trust:
  - A. May incur only costs that are appropriate and reasonable in relation to the assets, the purposes of the beneficiary and the account, and the skills reasonably available to Ministry Trust; and
  - B. Shall make a reasonable effort to verify facts relevant to the management and investment of such Fund.
- IV. Ministry Trust may pool two or more accounts for purposes of managing and investing.
- V. Except as otherwise provided by a trust agreement, the following rules apply:
  - A. In managing and investing the Fund, the following factors, if relevant, shall be considered:
    - 1. General economic conditions;
    - 2. The possible effect of inflation or deflation;
    - 3. The expected tax consequences, if any, of investment decisions or strategies;
    - 4. The role that each investment or course of action plays within the overall investment portfolio of the Fund;
    - 5. The expected total return from income and the appreciation of investments;
    - 6. Other resources of the beneficiary agencies, institutions and causes;
    - 7. The needs of Ministry Trust and the Fund to make distributions and to preserve capital; and
    - 8. An asset's special relationship or special value, if any, to the beneficiary agencies, institutions, and causes or to the donor;
  - B. Management and investment decisions about an individual asset shall not be made in isolation but rather in the context of the Fund's portfolio of investments as a whole and as a part of an overall investment strategy having risk and return objectives reasonably suited to the Fund and to the institution;
  - C. Ministry Trust may invest in any kind of property or type of investment consistent with its Investment Policy;
  - D. Ministry Trust shall reasonably manage the risk of concentrated holdings of assets by diversifying the investments of the Fund.

## Investment Managers

Subject to any specific limitation set forth in this agreement or in law, Ministry Trust may delegate to an external agent the management and investment of a fund to the extent that Ministry Trust could prudently delegate under the circumstances. Ministry Trust shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances, in:

1. Selecting an agent;
2. Establishing the scope and terms of the delegation consistent with the Ministry Trust's objectives.
3. Periodically reviewing the agent's actions in order to monitor the agent's performance and compliance with the scope and terms of the delegation.

## Investment Policy

The Fund is actively managed by professional investment advisors within the guidelines imposed by Ministry Trust's Investment Policy.

## Income Spending Policy – Ministry Trust Fund

Distributions to Fund beneficiaries are managed through Ministry Trust's Investment and Spending Policy.

## Fees

Ministry Trust must charge an administrative fee to cover some of its costs. The fee is in accordance with the regularly published Cost Recovery Fee schedule (attached) in effect from time to time, and may be deducted from the income and/or principal of property.

## Reporting

Ministry Trust delivers electronic account statements each quarter. Upon request of a beneficiary entitled to account history, Ministry Trust will provide an account history for up to a 72-month period. Ministry Trust may require one month to fulfill the request.

## Risk

Most assets will be invested in units of a common investment pool. The pools adhere to the

Investment Policy (attached) and are actively managed by professional investment advisers within the guidelines imposed by Ministry Trust. The pools are unitized in a manner similar to mutual funds. The unit price of a pooled investment will vary and will reflect changes in the value of the underlying stocks and bonds. Redemptions of investments in the common investment pools will be made at the market value of pool units at the time of redemption. This may be higher or lower than the original investment cost, resulting in a realized gain or loss on the participation pool.

**There are no guarantees of positive quarter to quarter returns.** As an example, the year 2008 showed a 22% loss in the Ministry Trust Fund. Except as otherwise indicated, **the common investment pools are long-term investments and are not appropriate for an investment period of less than five years.**

## The Ministry Fund Investment Policy

The Ministry Fund, LLC. was incorporated to support evangelical ministries and churches with the objective of advancing the gospel of Jesus Christ. Ministry Trust manages endowments, charitable funds, designated accounts, and planned gifts through prudent, dependable, and competitive fiduciary services consistent with the highest ideals of Christian stewardship.

### Scope of this Investment Policy

This document establishes the Investment Policy for Ministry Trust and is designed to assist in effectively supervising, monitoring, and evaluating the investment of the “Funds” under management. Ministry Trust has arrived at this Investment Policy through careful study of a range of investment strategies in relation to the current and projected distribution requirements of the Funds. This Investment Policy has been chosen as the most appropriate policy for achieving the financial objectives of the Funds which are described in the “Investment Objectives” section of this document; however, Ministry Trust shall be free to deviate from this Investment Policy when it concludes that it is prudent and in the interest of Ministry Trust or the ministries it supports to do so and may amend the Investment Policy at any time.

Ministry Trust has adopted a long-term investment horizon for The Ministry Fund such that the probability and duration of investment losses are carefully weighed against the long-term potential for appreciation of assets.

In addition to the Investment Policy defined herein, the management of the Funds will be in compliance with all applicable laws.

### Purpose of Investment Policy

The purpose of this policy is to outline Ministry Trust’s philosophy and worldview that will guide the investment management of the Funds and is set forth by Ministry Trust to:

1. Define and assign the responsibilities of all parties.
2. Establish a clear understanding of Ministry Trust’s general investment objectives and principles.
3. Establish guidelines for investment advisers and managers.

## Delegation of Authority

Ministry Trust is the fiduciary and is responsible for directing and monitoring the management of the Funds. The specific responsibilities of Ministry Trust relating to the investment management of the Funds' assets include:

1. Establishing an Investment Policy to oversee the management of the Funds; establishing and reviewing the investment objectives, permitted investments, asset allocations, and risk/reward profile for the Funds;
2. Electing and terminating the relationship with qualified investment professionals to manage the Funds; including Investment Adviser(s), Investment Manager(s), and Custodian(s); establishing the Spending Policy of the Funds.

As such, Ministry Trust is authorized to delegate certain responsibilities. These include:

## Investment Consultant

The Investment Consultant's role is to provide guidance to the leadership of Ministry Trust on matters pertaining to the investment of the Funds' assets including investment policy development, asset allocation, investment manager selection and oversight, monitoring the Funds' performance, spending policy distributions, and compliance with the Investment Policy. The Investment Consultant, in carrying out the Investment Policy defined in this document, has authority and responsibility to select appropriate investments in the specific asset classes mandated by this Investment Policy in accordance with the terms of an investment management agreement between Ministry Trust and the Investment Consultant. The Investment Consultant acknowledges its fiduciary status as non-discretionary Investment Consultant. The Investment Consultant acknowledges that it is a co-fiduciary with Ministry Trust with respect to determining asset allocation of the portfolio and selection of the Investment Managers. The Consultant shall not act as co-fiduciary of any managers retained or obtained by Ministry Trust that do not meet the Consultant's compliance requirements.

## Investment Managers

The Investment Managers have the discretion to buy, sell, or hold specific securities used to meet the Fund's objectives as well as vote proxies on behalf of Ministry Trust. The Managers should report to the Investment Consultant any major changes to outlook, strategy, or any qualitative change to the Organization (personnel, ownership, philosophy, etc.).

## Custodian

The custodian is responsible for the safekeeping of the Funds, and the duties include maintaining separate accounts, providing daily values (whenever possible), collecting dividends and interest, settling all transactions, and providing at least monthly statements.

## UPMIFA

Ministry Trust is responsible for managing the investment process in a prudent manner with regard to preserving principal while providing reasonable returns and consistent with the principles articulated in the Uniform Prudent Management of Institutional Funds Act ("UPMIFA") which was enacted in the state of Georgia July 1, 2008. In this regard, Ministry Trust will consider, if relevant, the following factors in managing the Funds:

1. general economic conditions;
2. the possible effect of inflation or deflation;
3. the expected tax consequences, if any, of investment decisions or strategies;
4. the role that each investment or course of action plays within the overall investment portfolio of the Fund;
5. the expected total return from income and the appreciation of investments;
6. other resources of the institution;
7. the needs of the institution and the Fund to make distributions and preserve capital;
8. an asset's special relationship or special value, if any, to the charitable purpose of the institution.

In addition, each person responsible for managing and investing the Funds shall comply with the duty of loyalty imposed by law and manage and invest the Funds in good faith and with the care an ordinary prudent person in a like position would exercise under similar circumstances.

## Investment Objectives

The foremost objective is to ensure that investment portfolios overseen by Ministry Trust are managed in a manner that is consistent with the Organization's stated beliefs and values. The Funds' investments will be actively screened and monitored by the Investment Consultant. A list of the portfolios' active social screens including prohibited investments will be maintained in Appendix B.

The investment objective for The Ministry Fund is to provide sufficient cash flow from interest, dividends, and realized or unrealized capital gains to meet the spending policy payout as specified from time to time, and to generate enough additional growth of principal to maintain the purchasing power of the income dollar. The specific performance goal for the Ministry Fund is a portfolio that has a high probability of providing a five-year average return of 7.5% over a full market cycle.

## Asset Allocation

The asset allocation within the funds is driven by the overall objective of Ministry Trust, as stated above. Specific equity, fixed income, and alternative investment disciplines that are used in the asset mix, along with the percentage of the portfolio allocated to each, are listed in Appendix A. Such allocations are subject to change upon the recommendation of the Adviser and approval of Ministry Trust.

It will be the responsibility of the Consultant to monitor the balance quarterly and notify the President of Ministry Trust if at any time the portfolio allocations deviate from the policy target allocation ranges listed in Exhibit A. It is recognized that market action may cause an imbalance in the interim period, but such fluctuations are normal and acceptable.

## Income Distribution

### Ministry Fund

The Ministry Fund shall distribute income based on the Income Spending Policy. The Income Spending Policy payout shall be calculated and distributed as a dividend for each share of the fund. Ministry Trust will review the dividend annually with the intent of increasing the dividend by 3% each year unless the resulting dollar amount is more than 5% or less than 4% of the applicable market value of the fund. The Ministry Trust will review the dividend on a quarterly basis to determine if the dividend remains in the 4%-5% corridor. If the dividend moves outside the corridor in any given quarter, Ministry Trust will adjust the dividend so that it remains within the corridor.

## Risk Tolerance and Volatility

The primary measurement of risk will be the standard deviation of average returns. Consistent with the desire for adequate diversification, the Investment Policy is based on the assumption that the volatility (standard deviation) of the combined equity investment will be similar to that of the market opportunity available to institutional investors with similar return objectives. The volatility of fixed income portfolios may be greater than the market during periods when

the portfolio duration exceeds that of the market and/or when alternative income strategies are utilized in the portfolio. The portfolio's risk objective is to maximize returns when adjusting for risk level and should not take inappropriate risks beyond what is necessary to generate the return objective.

Failure to achieve the goal in times of excessive market volatility is not a failure of the strategy, but will trigger an in-depth review and discussion with the Investment Adviser regarding the asset allocation and investment managers to insure that all are performing to expectations and to articulate a forward-looking plan for improvement.

All assets contributed to Ministry Trust shall be disposed of as soon as practical should they not conform to the established guidelines. In extraordinary circumstances, per Ministry Trust approval, assets contributed to Ministry Trust may not be allocated according to Appendix A and will be dealt with on a case-by-case basis.

## Alternative Manager Guidelines

The investment objective of the Alternative Manager is to produce returns comparable to those of the equity markets over a full market cycle targeting substantially less volatility (standard deviation) than equities by investing in a concentrated portfolio of long/short hedge funds. The Alternative Fixed Income allocation is expected to include private real estate and private debt investments made through commitments to limited partnership funds dedicated to those asset classes. Real estate investments may include funds pursuing Core and/or Value Add

real estate sub-strategies. Core real estate investments are characterized by stable, well-leased properties in major metropolitan markets and are expected to produce consistent returns primarily through current yield. Value Add real estate may consist of properties primary or secondary metropolitan areas requiring some improvement or repositioning to drive rent increases; Value Add real estate is expected to provide a combination of current income and capital appreciation. Private Debt investments generally consist of directly originated or syndicated senior loans to middle market companies and are backed by the borrower's cash flows and potentially by their hard assets. Private Debt returns are primarily through current income at a premium to traditional fixed income credit yields. Due to the private nature of alternative investments Ministry Trust may be limited in its ability to administer the screening guidelines listed in Appendix B for assets placed with alternative managers.

The Investment Policy was adopted on **February 4th, 2021** and is subject to modification at the discretion of Ministry Trust, LLC.

## Income Spending Policy

### Ministry Trust Fund

The goal of the Income Spending Policy of the Ministry Fund (Fund) is to allocate total earnings between current spending and reinvestment to increase future spending and to provide a predictable and growing stream of income to accomplish Ministry Trust's and participating ministries' goals and objectives. The Income Spending Policy's payout may be taken from current income or, if current income is less than planned spending, principal. The Income Spending Policy is designed to ensure that the Fund preserves real purchasing power in perpetuity while providing consistent financial support to all the ministries served by Ministry Trust.

Ministry Trust, LLC. shall oversee the Fund and Income Spending Policy as it determines to be prudent for the uses, benefits, purposes, and duration for which the Fund is established. In making a determination to distribute or accumulate assets, Ministry Trust shall act in good faith and, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances and shall consider, if relevant, the following factors:

1. The duration and preservation of the endowment fund;
2. The purposes of the beneficiary institution and the endowment fund;
3. General economic conditions;
4. The possible effect of inflation or deflation;
5. The expected total return from income and the appreciation of investments;
6. Other resources of the beneficiary institution; and
7. Ministry Trust's Investment Policy

Ministry Trust has established a spending payout goal of 4% - 5% annually. The spending payout shall be calculated and distributed as a dividend for each share of the Fund. Ministry Trust will review the dividend annually with the intent of increasing the dividend by 3% each year unless the resulting dollar amount is more than 5% or less than 4% of the applicable market value of the Fund. Ministry Trust will review the dividend on a quarterly basis to determine if the dividend remains in the 4%- 5% corridor. If the dividend moves outside the corridor in any given quarter, Ministry Trust will adjust the dividend so that it remains within the corridor.

## Policy Exceptions

Under UPMIFA, the calculation of historic dollar value has been eliminated, thus relieving the burden of restricting the income distribution when the endowment market value falls below the original gift value (underwater) and instead requires prudence to be exercised. Ministry Trust, LLC. has adopted guidelines for spending to identify and administer underwater irrevocable endowments.

The market values of irrevocable endowment investments are compared to their original gift values as of December 31 each year. If the market value is less than 80% of the original gift value, neither the Spending Policy payout, nor the income portion of the Cost Recovery Fee, will be distributed from the endowment for the upcoming year. The Spending Policy payout will be reinvested in the Fund until the market value of the investment recovers to 80% of the original gift value, measured as of December 31. Exceptions to this Policy must be approved by Ministry Trust, LLC.

The Spending Policy is reviewed periodically to consider if appropriate adjustment is necessary.

Approved by Ministry Trust, LLC. on **August 6, 2020**, and amended from time to time.

## Statement of Common Belief

### Scripture

The Holy Bible was written by men divinely inspired and is God's revelation of Himself to man. It is a perfect treasure of divine instruction. It has God for its author, salvation for its end, and truth, without any mixture of error, for its matter. Therefore, all Scripture is totally true and trustworthy.

### God

There is one and only one living and true God. He is an intelligent, spiritual, and personal Being, the Creator, Redeemer, Preserver, and Ruler of the universe. God is infinite in holiness and all other perfections. God is all powerful and all knowing; and His perfect knowledge extends to all things, past, present, and future, including the future decisions of His free creatures. To Him we owe the highest love, reverence, and obedience. The eternal triune God reveals Himself to us as Father, Son, and Holy Spirit, with distinct personal attributes, but without division of nature, essence, or being.

### Christ

Christ is the eternal Son of God. In His incarnation as Jesus Christ He was conceived of the Holy Spirit and born of the virgin Mary. Jesus perfectly revealed and did the will of God, taking upon Himself human nature with its demands and necessities and identifying Himself completely with mankind yet without sin. He honored the divine law by His personal obedience, and in His substitutionary death on the cross He made provision for the redemption of men from sin. He was raised from the dead with a glorified body and appeared to His disciples as the person who was with them before His crucifixion. He ascended into heaven and is now exalted at the right hand of God where He is the One Mediator, fully God, fully man, in whose Person is effected the reconciliation between God and man. He will return in power and glory to judge the world and to consummate His redemptive mission. He now dwells in all believers as the living and ever-present Lord.

### Salvation

Salvation involves the redemption of the whole man, and is offered freely to all who accept Jesus Christ as Lord and Saviour, who by His own blood obtained eternal redemption for

the believer. In its broadest sense salvation includes regeneration, justification, sanctification, and glorification. There is no salvation apart from personal faith in Jesus Christ as Lord.

## Marriage

Marriage is the uniting of one man and one woman in covenant commitment for a lifetime. It is God's unique gift to reveal the union between Christ and His church and to provide for the man and the woman in marriage the framework for intimate companionship, the channel of sexual expression according to biblical standards, and the means for procreation of the human race. The husband and wife are of equal worth before God, since both are created in God's image.
